

Career Objective

React Developer: I have expertise in the MERN stack and am focused on building dynamic web applications. I seek opportunities to contribute to innovative projects and further develop my skills.

Professional Summary

Experienced React Developer skilled in creating exceptional user experiences with clean, efficient code. Proficient in React.js architecture and front-end best practices, with strong problem-solving abilities and a collaborative approach to achieving project goals.

Skills

- **Frontend:** HTML | CSS | JavaScript | React.js | Redux | Tailwind CSS | Bootstrap | RESTful APIs | Git & Github | Responsive Design | Webpack
- **Backend:** Node.js | Express.js | MongoDB | Firebase | REST API Development | Authentication & Authorization (JWT, Firebase Auth) | Database Design & Optimizations | CRUD Operations | API Integration | Server Deployment (Heroku, Render, Vercel)
- **Tools:** Docker | Postman | Nginx | VS Code | Git & GitHub | Webpack | Netlify
- **UI/UX Design:** Familiar with Figma for design mockups and building responsive interfaces using Tailwind CSS, and Material-UI.

Experience

- **Frontend Developer Intern, Syftet Limited (Aug 2023 - Dec 2023):** Developed web interfaces using HTML, CSS, and JavaScript; worked on improving UI/UX; assisted with API integration and ensuring smooth frontend functionality.

Project

1. Baniray Government Primary School (Mern Stack Project) [Frontend](#) || [Backend](#) || [Demo](#)

A dynamic learning platform where students can enroll in various subjects. It includes three user roles: Student, Instructor, and Admin. The project is built using React JS, Tailwind CSS, Node.js, Express.js, MongoDB, and Firebase, with features such as user authentication, real-time data management, and a responsive UI.

2. Gourmet Haven Restaurant (Mern Stack Project) [Frontend](#) || [Backend](#) || [Demo](#)

Gourmet Haven Restaurant is a modern e-commerce platform offering users a seamless online ordering and dining experience. It features dynamic menu management, secure login systems, payment integration with Stripe, and real-time order tracking. Built with React, Express.js, MongoDB, and Firebase, the project includes an engaging UI/UX, an admin dashboard, and visual analytics to ensure an enhanced user experience.

3. Creative Design Hub (Mern Stack Project) [Frontend](#) || [Backend](#) || [Demo](#)

Creative Design Hub is a modern web platform for showcasing and managing creative projects. It features secure authentication using Firebase, Stripe payment integration, and dynamic project management. Built with React and Tailwind CSS for an intuitive UI, and powered by Node.js, Express, and MongoDB for robust backend support. Additional enhancements include smooth animations with AOS and Lottie for an engaging user experience.
